Australian Bush Land

In the bush was where I worked
From here to there and everywhere
The place was interesting and crazy
Everything inside made me happy.

Within the bush you can see
Trees swaying, standing astoundingly.
Wild animals and birds
Wandering around freely.

The bush gives us comfort,
That we could make use everyday
Like humans, who need to be looked after too
To everyone let's make our bush rubbish free.

This little act of kindness
Can already make a big difference
So, leave our bush alone, leave as what it is
Leave it for the next generation to access.
