

Community Virtual Nursing into Residential Aged Care

Information and Consent Form

The Community Virtual Nursing (into Residential Aged Care) program is a Department of Health and Aged Care funded initiative intended to help Residential Aged Care homes access additional registered nursing support to provide care to residents.

Your Home has been selected by the Department to participate in the program which will see Amplar Health registered nurses working virtually alongside your Home nurses and care staff.

How will this impact you?

Amplar Health's Community Virtual Nursing program gives the team at your Home access to additional registered nurses, specialised nurses, and afterhours support. This means your care will be supported by an even larger team of dedicated health professionals.

To be able to provide quality care in a safe and effective manner, the staff at your Home will share your personal information (including information about your health) with Amplar Health nurses so that we can provide advice, undertake assessments and deliver care to you via video and telehealth consultations. Amplar Health nurses will also have access to your clinical care records so they can make notes and obtain important information about your health and your care. This may include:

- i. information about your health and health history;
- ii. clinical measures such as blood pressure, pathology results, health assessments and care plans; and
- iii. other information – such as your cultural background, care preferences and preferred language so we can tailor services to meet your needs.

Amplar Health may also collect your information to manage any incidents or complaints which may arise through the program and to improve our services.

Amplar Health may share your personal information with staff at your Home, your healthcare providers such as your GP or specialists, external service providers who help us deliver our services (such as our IT service providers) and regulatory authorities if required by law.

All personal information we collect is handled in line with our privacy policy available at <https://amplarhealth.com.au/privacy/> - or you can scan this QR code ->

Can I choose not to participate?

You can choose not to be involved in the program, and even after agreeing to take part you may withdraw at any time by informing your virtual nurse or any of your Home staff. Your choice will not affect the usual care you receive in the Home.

If you have any questions or concerns about the program, please speak with your Home's Care Manager/Care team.

Your consent

Amplar Health requires your consent to participate in the program and receive virtual nursing services from Amplar Health.

Resident consent:

I choose to participate and would like to receive Virtual Nursing support.

I understand that participation will involve:

- my Home sharing my personal information (including my clinical records) with Amplar Health; and
- Amplar Health collecting my personal information for the purpose of providing the service.

I agree to the above: Yes ☐ No ☐
