Living well at Whiddon Moree

At Whiddon Moree, our goal is to support wellbeing through our holistic approach to care. We offer a range of services to help you feel safe, comfortable and connected, and most importantly, home.

Whiddon Moree offers exceptional care, wellbeing and social programs, and a range of accommodation options, including a secure dementia care wing, private and companion rooms.

Our home at Whiddon Moree, previously Fairview Retirement Village, is located in the heart of Moree, just next door to Moree Hospital and opposite the golf course. Our home has wonderful gardens and outdoor courtyard areas for residents to enjoy, an onsite hairdressing salon, self-serve café in the foyer and a family room.

Your wellbeing is the most important thing to us, and is why you're here. Our care approach prioritises relationship building and partnerships with residents and families, engaging you and your family to be true partners in your care journey. As part of our relationship based care model, every resident has a dedicated Buddy, whose job it is to get to know you really well and to personalise your care based on your wishes and choices.

MyLife & Relationship Based Care

Our care philosophy has always been based on a belief that personal growth and meaningful activity is possible for everyone.

Research and experience tells us that meaningful day-to-day relationships between our team members and residents are at the heart of great care.

MyLife, our award-winning relationship based model of care, integrates care for social, emotional and physical needs, and sees staff truly getting to know residents by finding out what matters most to them, so they can build strong and deep personal relationships.

Relationship based care focuses on partnership with residents, clients and their families, to achieve a highly personalised level of care built on relationships and supporting people to continue doing what matters to them, regardless of frailty or ill health.

When our staff learn more about our residents' unique life experiences, they are able to go above and beyond to find ways to keep our residents connected and participating in the things that matter most to them, like achieving personal goals, reliving old hobbies or trying something new.

Best Week makes dreams come true

Each resident experiences a Best Week at least twice a year. The Best Week team work together, partnering with families, to create a week of tailored activities for each resident.

Best Weeks can be big or small treats and events, some of which become part of residents' daily care. Often the Best Week team get creative and team up with local interest groups such as fishing groups, businesses and volunteers to make Best Week wishes come true.
