Meet David - proud dad and NDIS Participant

David has been receiving Coordination of Services support from Whiddon for two years.

David loves spending time with his family and watching his daughter play sports over the weekend. You'll always find him on the sidelines at every game, cheering her on.

When David acquired a traumatic brain injury, he found himself needing extra support with various tasks, particularly around the house and getting around the community.

In addition, he is required to attend Dialysis every Monday and Thursday.

Through his NDIS plan, Whiddon's Support Coordinator has been able to secure necessary providers to assist with goals he has set out to achieve within his plan.

Coordination of Supports

Whiddon is an approved and **registered** provider of NDIS Coordination of Supports.

Through Coordination of Supports, we can assist you and your family to identify, develop, coordinate and access services, as well as provide information so that you can choose who and how these services are provided.

Under the National Disability Insurance Scheme (NDIS), you must have Coordination of Supports included as part of your NDIS Plan in order to access this service.

Once you have your NDIS plan you can contact Whiddon's Coordinator of Supports who will provide all the help you need when it comes to sourcing and connecting with the right people or organisations that meet your needs.

We can provide all levels, of coordination of supports.

Examples of the types of assistance we can provide include:

- ✓ connecting you with informal, mainstream and funded supports to strengthen your capacity and resilience
- ✓ negotiating services and pricing
- ✓ arranging assessments required to determine the nature and type of funding required
- ✓ liaising with Plan Managers to establish the appropriate claim categories
- ✓ providing participants with assistance to resolve problems, understand their responsibilities under service agreements
- ✓ change or end a service agreement.
